

Agenda Topics for the State Caucus - From Top 3 Survey

TX	Statewide Geospatial infrastructure for GIS	Budget strategies for statewide data acquisition	Data sharing ideas for critical infrastructure and secure data elements for use in emergency planning and response
OH	Future mid-year meeting formats		
ND	Portals! Lots of choices and thus some confusion, what are the states doing? Esri alone offers geoportal, portal, Open Data, ArcGIS Online	Update on Map21, FirstNet	Census Bureau boundary update program - what is expected of the states, what is the maintenance plan
AL	Update on statewide UAS activities/legislation	ArcGIS Online activities/issues	
NC	Update on progress with national initiatives and impact/expectations for the states	State perspectives on NextGen 911	GIS business case examples and successes in other states
MD	Combining traditional open data portals (tabular data) with GIS portals.	Data collection efforts with local governments related to NG 9-1-1 needs. This includes data sharing agreements, etc.	Remaining relevant to and increase value to members and would-be new members.
AR	Take a serious look at the development of specifications for GIS data development and conversion services, such as Parcels, administrative boundaries, NHD, ortho-imagery, LiDAR, etc., that could be adopted through a WSCA/NASPO contract. Procurement and contracting is the Achilles Heel of our state level work and sometimes a barrier to progress. The WSCA/NASPO mechanisms make the process substantially quicker and with fewer resources on small agencies.	NSGIC Membership / Participation by non-participating states. Is it time to excise the mailing list?	NSGIC's advocacy strategy for upcoming national geospatial related legislation.
AZ	expanding 3DEP - how do we plan for statewide access / sustainability	Need for a standardized divided highway model (Is there a median?, Where can fire trucks turn left?)	Digital Archive & Preservation (Who, How, Where, Why=ROI)
WA	Metadata / GIS Inventory	Progress states are having with FirstNet	What's on the horizon for NSGIC and GIS as a whole
CO	FCC broadband mapping	Census address RFI	
ID	Multi-State Coordination	CADSDI - GCDB Issues and State Boundary	ArcGIS Online - how to coordinate - best practices - how it fits with current infrastructure and new users

Agenda Topics for the State Caucus - From Top 3 Survey

MS	What does NSGIC have to offer local governments to entice them to support NSGIC	"White paper" on accomplishments of NSGIC for distribution to state and federal political representatives	State contingency plans should budget cuts impact geospatial operations and initiatives
MO	UAS implementation	geospatial privacy	
VA	State plans for 3DEP grant	Digital Globe's Worldview 3 satellite and use in state government	NG9-1-1 activities in the states
WY	NG911 strategies and needs	Seek guidance for my governance group	Share feedback I've received on NSGIC's approach
MN	Continuing to build toward statewide and national databases	How can NSGIC help to open the door for collaborative multistate and or/federal opportunities	Finding ways to engage our local partners in NSGIC activities and programs could really help build stronger state programs
SC	Sponsorships	SSDI	Legislation
NJ	National address database	Industry/market shifts in imagery acquisition	3DEP
KY	USGS 3DEP	Imagery for the Nation	ESRI cloud
DC	Open Data	3D Data	Data Governance
NY	COGO report card on FGDC framework data	Gaining consensus on our advocacy agenda	Staying focused on what makes NSGIC unique
OR	Addresses for the Nation	ArcGIS Online for Congress	NSDI enabling legislation
IN	Google imagery	3 DEP activities	Community resiliency
RI	Sustainable GIS funding models for states without a GIS agency/unit who fund GIS as a team effort	Hybrid state GIS staffing models for states with a central GIS agency plus GIS staff in other agencies	The latest status of federal initiatives supporting a single nationwide address point repository
UT	NSGIC taking a position on the proper roles (by theme) for geospatial data theme maintenance activities (local, state, national, & private sector)	Primacy concept	
4	NG 9-1-1 Strategies and Activities		
5	ArcGIS Online, Data Portals,		
21	Data Production, Federal Data Programs, Data Models, Data Maintenance, Addresses, Imagery		
13	NSGIC Issues, Advocacy Agenda, Conferences, Attracting New Members		
5	3DEP Program		
2	UAS Issues
