Dear PLS Plat Map User:

On June 5th, 2006 the Land Management Information Center updated the following public land survey map images. These updates were required to correct for improperly scanned or named images. If you have downloaded these images prior to this date, please download them again. At the request of the Minnesota Office of the Secretary of State, several new images (as noted) were added to the collection. They included a number of re-surveys and numerous island surveys.

Thank you!

John Hoshal, GIS Services Supervisor
